AI@MEDIATORS

ABOUT AI@MEDIATORS

AI@Mediators is an Erasmus+ project dedicated to creating a digital program that leverages AI and other digital learning tools to prevent and combat cyberbullying. Our mission is to support teachers, school leaders, and educators in their efforts to tackle cyberbullying, while also informing and collaborating with stakeholders and representatives of political and educational institutions. The project's ultimate goal is to promote policies and pedagogical content that can be integrated into school curricula to more effectively identify and regulate cyberbullying.

Kick-off meeting in Alicante, Spain (11-12 July 2024)

The kick-off meeting of the AI@Mediators project took place in the University of Alicante on July 11-12, 2024.

The partners met face-to-face for the first time and discussed about the upcoming tasks and future challenges in their mission to prevent cyberbullying in schools with AI solutions. By this meeting, they were able to define the next steps to be taken in the project.

The meeting was conducted successfully and partners are now working hard for a cyberbullying-free future!

WHAT'S NEW!

AI@MEDIATORS

ANALYSIS OF ETHICAL AND LEGAL ISSUES

We're happy to announce the completion of key resources to promote the ethical and legal use of AI in secondary education:

- A **detailed guide on developing AI policies and protocols** based on expert insights and research.
- **Clear guidelines for using AI in secondary education** focusing on privacy, data protection, and ethics.
- A **framework assessing AI's effectiveness in combating cyberbullying**, emphasizing privacy and ethical standards.
- A **cyberbullying detection guide** offering practical advice on the use of AI to detect and address cyberbullying, ensuring data protection and support for affected teenagers.

DIGITAL EDUCATIVE PLATFORM

- We are developing a **FREE** e-learning course on **building resilience against cyberbullying**.
- The course will be addressed to **students**, **teachers** and **parents** and will include lessons, practical exercises, training videos, and quizzes.
- Upon successful completion of the course, the participants will receive a **certificate**.

COMING SOON

AI TOOLKIT

- We are creating a **self-assessment AI chatbot** to help students **identify cyberbullying and set boundaries**, along with an **educational app/game** for students and teachers to **enhance prevention and support**.
- Both tools are already developed and ready to be filled with content.
